GET BETTER CUTS AND TOOL LIFE WHEN CUTTING NON-FERROUS METAL

To effectively cut or machine non ferrous metal, it is beneficial to use a lubricant similar to the Formax Slip-Stick.

An excellent metal working grease stick that provides lubrication, reduces friction, tool wear and breakage, prevents burning, welding chatter, galling and tearing. It is particularly good for saw cutting applications. It is compatible with all ferrous and non-ferrous metals. Biodegradable, non-irritating and non-toxic. Uses: Drilling, Grinding, Sawing, Tapping, Cutting, Spinning, Pipe Cutting, Machining, Lubricating Draw Dies, Pulling Wire Through Conduits, Polishing with Coated Abrasives.

Keeping carbide cutting tools cool is the key to extending tool life.
